**CURRICULUM OF
REVISED TWO YEAR BACHELOR OF EDUCATION (B.Ed.) PROGRAMME**

With effect from 2017-2018 Academic Year

PREFACE TO THE REVISED TWO YEAR B.Ed CURRICULUM

University of Calicut has started two year B.Ed Programme as per the Directions of NCTE Regulations – 2014. The students of first Batch of two year B.Ed Programme complete their programme in the year 2017. Considering the feedbacks from different stakeholders, Board of Studies in Education (UG), Calicut University has decided to modify the existing two year B.Ed Programme. The revision will be applicable to 2017 admission onwards. For Revising the curriculum, Board of Studies has organized two regional workshops – one at NSS Training College Ottappalam for Teachers of B.Ed Colleges affiliated to Calicut University from Thrissur and Palghat District and Second one at Farook Training College, Calicut for teachers of B.Ed Colleges affiliated to Calicut University from Calicut, Malappuram and Wayandu Districts. Considering the opinion of teachers, minor modifications were incorporated to the existing curriculum. More clear guidelines are given to the conduct of School internship and other practicals. The modifications were done based on the suggestions of NCTE in their Model curriculum for B.Ed Programme.

Board of studies extends its sincere gratitude to Dr Mohammed Basheer, Honourable Vice Chancellor of Calicut University for his guidance and patronage extended to us. Board also extends its thanks to Internal Quality Assurance Cells of Farook Training College and NSS Training College ottappalam for collaborating with us in organizing workshop for revision of the curriculum. The Board Expresses its sincere thanks to all the teachers who contributed to the revision of two year B.Ed Programme.

PREFACE TO THE TWO YEAR B.Ed CURRICULUM

“The destiny of India is now being shaped in her classrooms”, the Education Commission professed. The NPE 1986 also emphasized, “The status of the teacher reflects the socio-cultural ethos of the society; it is said that no people can rise above the level of its teachers”. Such exhortations are indeed expressions of significant role played by the teachers. Hence education

reforms invariably accord highest priority to improve teacher effectiveness. The issue of quality teacher education is closely tied up with the concern for the duration of initial teacher preparation programmes. Over the last two decades in India, the issue of curriculum renewal and extended duration of secondary stage teacher education has received serious attention. A perusal of the reports of various commissions and committees like Kothari Commission, Chattopadhyaya commission and justice Verma committee indicate the preference for longer duration of B.Ed. programme. It was also endorsed by the Hon'ble Supreme Court of India. The NCTE made the recommendation for beginning a two-year B.Ed. programme to prepare quality teachers as per Regulation 2014. Accordingly, the two-year B.Ed. course aims at a complete development of the student-teacher; particularly in knowledge and skills, in individual care of the learner and also in methods and evaluation designed to facilitate learning. The curriculum retains the essence of student-teachers being active participants in the learning process and prepares the student-teachers for facing the emerging challenges resulting out of globalization and its consequences.

The curriculum could not have been completed without the dedication of the 13 core committee members and 65 members of Expert committees. In the process of designing the B. Ed curriculum the Board of Studies in Education (UG) received valuable inputs from teacher educators through a series of intensive deliberations. The contribution of the IQAC of Farook Training College in organizing a workshop for developing the draft curriculum is duly acknowledged. . The draft curriculum was subsequently scrutinized by an expert committee.

It is with profound respect and gratitude we retrospect the inspiring guidance and patronage extended by the Honorable Vice Chancellor Dr.M. Abdul Salam in this venture. The Board of Studies specially places on record its deep gratitude to Prof (Dr.) K. Sivarajan, Dean, Faculty of Education for guiding us. We sincerely acknowledge the valuable contributions made by the faculty members of Farook Training College, Calicut, NSS Training College, Ottappalam, IASE, Thrissur and all other members of expert committee.

The Board of Studies dedicates this new curriculum to the teacher education community.

UNIVERSITY OF CALICUT 2 YEAR BACHELOR OF EDUCATION (B.Ed.) PROGRAMME

1. INTRODUCTION

Bachelor of Education (B. Ed.) programme is a professional programme meant for preparing teachers for upper primary or middle level (classes VI- VIII), secondary level (classes IX-X) and senior secondary level (classes XI-XII)

It is well known that the quality of school education is determined primarily by teacher competence, sensitivity and teacher motivation. It is common knowledge too that the academic and professional standards of teachers are achieved only by a systematically conceived teacher education programme. The Teacher Education mission is to empower candidates to become ethical, knowledgeable, prepared individuals who can assume the role of teacher in elementary and secondary schools as well as prepare them for further career choices and advancement.

As envisioned by NCTE Regulation 2014 the University of Calicut revises its teacher education programme for preparing professionally empowered teachers. The Board of Studies hopes that this revised Teacher Education Curriculum has tremendous potential to imbue the prospective teachers with the aspirations, knowledge base, repertoire of pedagogic capacities and human

attitudes. The Two year B.Ed. programme shall be introduced with effect from academic year 2015-16. The modified curriculum of the two year programme shall be implemented from the academic year 2017-18.

The course structure offers a comprehensive coverage of themes and rigorous field engagement with the child, school and community. The programme is comprised of three broad inter-related curricular areas – I) Perspectives in Education, II) Curriculum and Pedagogic Studies, and III) Engagement with the Field. All the courses include in-built field-based units of study and projects along with theoretical inputs from an interdisciplinary perspective. Engagement with the Field is the curricular component that is meant to holistically link all the courses across the programme, while it also includes special courses for Enhancing Professional Capacities (EPC) of the student teachers. Transaction of the courses is to be done using a variety of approaches, such as, case studies, group presentations, projects, discussions on reflective journals, observations of children, and interactions with the community in multiple socio cultural environments.

Definitions

Programme: Programme means a patterned combination and sequences of courses in the discipline education spreading over four semesters, the successful completion of which would lead to the award of a bachelor degree in education

The curriculum will be introduced in all the Colleges of Teacher Education affiliated to University of Calicut and the Calicut University Teacher Education Centers directly run by the University with effect from 2015-2016 admissions.

Course: Course is a complete integrated series of lessons / instructional content which are identified by a common title.

Semester System: An academic system with programme designed to be completed progressively within a period covering multiples of half an academic year. It is a pattern of the course in which the whole programme is divided into different parts and each part is intended for a specified period of time, called semesters. The B.Ed. programme includes four semesters.

2. STRUCTURE OF THE PROGRAMME

B. Ed. programme is a professional teacher education programme. The programme consists of four semesters of 100 days each. The structure of the course is in tune with the framework suggested by NCTE. The theory courses consist of seven (7) courses under **Perspectives in Education**, six (6) courses under **Curriculum and Pedagogic Studies** and one (1) additional Optional Courses. Under the category **Engagement with the Field** apart from School Internship four (4) EPC courses are introduced for enhancing professional capacities

Condonation of shortage of attendance shall be as per existing University rules. Candidates with shortage of attendance beyond condonable limit will not be eligible to register for the end semester University examination. In such cases the candidate has to repeat the course by taking re-admission from the University.

Registration for each Semester

All the courses carrying score should be compulsorily attended by all the candidates for the successful completion of the course. Only such candidates are permitted to register for the End Semester University examination. Every candidate should register for all subjects of the end-semester examinations of 1st, 2nd and 4th semester before its closure. But for the 3rd semester (Since having no End Semester Theory Examinations), registration is to be done after the closure of the semester. A candidate who does not register will not be permitted to attend the end-semester

examinations; he/she shall not be permitted to attend the next semester. A candidate shall be eligible to register for any higher semester, if he/she has satisfactorily completed the course of study and registered for the examination of the immediate previous semester. He/she should register for the semester before the stipulated date. University will notify the date of registration and the starting and closing dates for each semester.

Re-admission rules Those candidates who discontinue the course can be given the provision of readmission if otherwise eligible as long as the same scheme exists. There shall be provision for readmission in the same institution in the second, third and fourth semesters within a period of three years for those who have satisfactorily completed first, second and third semesters respectively and also registered for the previous semester University Examination, provided there is vacancy in the institution and the syllabus being the same. Re-admission shall be permitted during the first week of 2nd, 3rd and 4th semester.

Additional Optional

In the fourth semester, students shall choose one additional optional course from the subjects prescribed in the syllabus and offered by the institution.

Seminar

Seminars are an important part of professional life. B.Ed. students are expected to present one seminar paper on an educationally relevant theme during the 4th semester. 50 hours is set apart for the seminar. The whole batch of students should be assigned seminar presentation.(Refer annexure-II)

Scheme of instruction: - There shall be 100 contact hours for the instruction of each theory course with **full weightage (100 marks Course)** Fifteen hours is also assigned for tasks and assignments, college based practicals/tests of each full weightage theory course.

Courses **EDU 14.1-7** are Additional Optional courses. Institutions with 50 annual intakes should offer a minimum of two courses from this; institutions with 100 annual intakes should offer at least three courses from this category. Faculty can cater to both Perspective and Pedagogy courses and also courses on **EPC** and be utilized for teaching in flexible manner so as to optimize expertise available.

Course Calendar

The course calendar, published by the University in advance, should be strictly followed for ensuring timely conduct of examinations and publication of results. Semester classes should be started and completed on the stipulated dates at all affiliated institutions as notified by the University. Regular classes for the subsequent semesters will be started only after completing the examinations of the just previous semester. Faculty members from affiliated institutions who are assigned duty by the University for Centralized Valuation Camp should strictly attend the

valuation at the specified center; Head of each institution should ensure this. Suspending classes for the conduct of valuation camp is not a feasible procedure; Home valuation may be implemented for examinations of 1st semester. Faculty members appointed for Centralized Valuation Camp/home valuation should necessarily have minimum three years teaching experience at B.Ed. degree level. Within a week after the commencement of classes of each semester, Head of each Institution should forward the list of faculty members working in the college along with their qualification and years of teaching experience, to the University. This is a mandatory requirement which should be strictly followed by Head of each Institution. Head of each Institution shall ensure the availability of sufficient number of regular faculty members having experience and qualifications (as per NCTE Regulations) in the institution.

Procedure for completing the course

A candidate shall be required to complete the B.Ed. programme after undergoing the prescribed courses of study in a college affiliated to the university for four semesters within a period of not less than two years; clear all the examinations prescribed and fulfill all such conditions as prescribed by the University from time to time. However the maximum duration permissible for taking the B.Ed. programme is fixed as 3 years after joining the course.

Eligibility for the Degree

No candidate shall be eligible for the B.Ed. degree unless he/she has undergone the prescribed course of study for a period of not less than two academic years in an institution affiliated to the University of Calicut and has passed all subjects as per the prescribed syllabus.

Revision of Regulation: Notwithstanding all that has been stated above, the university has the right to modify any of the regulations, scheme and syllabus of the programme from time to time as per University rules.

4. SCHEME OF EXAMINATION & INTERNAL ASSESSMENT.

Assessment of Students

Assessment of students for each subject will be done by internal continuous assessment and end semester examinations. Internal assessment shall be conducted throughout the semester. It shall be based on internal examinations, assignments (such as Tasks and assignments that run through all courses.) as specified in the syllabus. **End-semester examinations of theory subjects will be conducted by the University and those of all practical subjects will be conducted at institutional level.**

There shall be End Semester University Examinations in 1st, 2nd and 4th semesters. 3rd semester is an exclusive Practical semester and hence there will be no End Semester University Examinations for theory in the 3rd semester. However results of the Practical courses internally evaluated will be published by the university. End-semester examinations will be conducted only once in a year; failed candidates will have to appear for the end-semester examinations along with regular students of the next batch. To ensure transparency of the evaluation process, the student should be made aware of the criteria / indicators of assessment well in advance and the internal assessment marks awarded to the students in each course (theory and practical) shall be published on the notice board at least one week before the commencement of external examination so as to enable the students to report any corrections. There shall not be any chance for improvement for internal marks. There shall be no separate minimum for internal assessment of theory courses. Students may seek redress of grievances of internal evaluation at the teacher educator level or at the college evaluation committee level. The consolidated mark lists of all courses of a semester shall be submitted to the University immediately after the closure of each semester

Assessment in Theory Subjects

The ratio of internal to external examination for theory courses is 20:80.

The marks allotted for internal continuous assessment and end-semester university examinations shall be **20 marks and 80 marks** respectively with a maximum of **100** marks for each *theory subject with full weightage* and shall be **10 marks and 40 marks** respectively with a maximum of **50** marks for each *theory subject with half weightage*.

Internal evaluation: The internal evaluation of Theory courses shall be based on predetermined transparent system involving periodic written tests, practicum/tasks and assignments. The weightage to award internal continuous assessment marks should be as follows:
Test papers (minimum **two** for 100 marks courses and **one** for 50 marks courses) – 50%
Tasks and Assignments (**two** for 100 marks courses and **one** for 50 marks courses) -50%

Assessment of Practical Courses

Practical Courses viz., School based, College based and Community-based Practical will be subjected to internal assessment through continuous evaluation. Comprehensive assessment of the College, School & Community Based Practical for Semester I (**EDU101, EDU102, EDU203**) ,for Semester II (**EDU 201.1 EDU 201.2 EDU 201.3 EDU 201.4 EDU 201.5**),for semester III(**EDU301,EDU302, EDU303EDU304**) and for semester IV (**EDU401, EDU402,EDU403.1, EDU403.2**)will be done internally by the teacher educators concerned on the basis of the criteria fixed for the purpose. For assessing student performance, Criteria / Performa based on rubrics have to be developed for each task by the Teacher Educators to make assessment objective. Internal assessment of Initiatory school experiences (**EDU 201.5**) of Semester II and Internship (**EDU 301**) of Semester III will be carried out by Optional teachers. The only one external assessment for the practicals is for **EDU 404** (Practical Examination and viva voce)

Pattern of Questions for End-Semester Examinations of Theory Subjects

End-Semester Examinations shall normally be conducted at the end of each semester. There are two types of theory examinations- 80 Marks-3 Hours Paper and 40 Marks-2 Hours Paper. There shall be one end-semester examination of **3 hours** duration in each *full weightage* theory courses and of **2 hours** duration in each *half weightage* theory courses. The question papers of end-semester examinations of theory subjects shall be able to perform achievement testing of the students in an effective manner. The question paper shall be prepared in accordance with the following guidelines

A question paper may contain very short answer type, short answer type /annotation, short essay type questions, essay type questions /long essay type questions depending on its duration and marks. Different types of questions shall have different weightage to quantify their range. The pattern of questions for theory subjects shall be as follows:

80 Marks-3 Hours Papers (for courses **EDU 01, EDU 02,EDU 07, EDU 08, EDU 05.1-13** and **EDU 09.1-13**) **should contain**

a) 10 questions of 2 marks each= **20** (Answer 10 Questions out of 10)

- b) 10 questions of 4 marks each= **40** (Answer 10 Questions out of 12)
- c) 2 questions of 10 marks each=**20** (Answer 2 Questions out of 3)

(Maximum Marks: 80)

40 Marks-2 Hours Papers (for courses **EDU 03, EDU 04,EDU 06, EDU.10, EDU.11, EDU.12, EDU.13, 1-13 and EDU.14.1-7**) **should contain**

- a) 6 questions of 1marks each= **06** (Answer 6 Questions out of 6)
- b) 04questions of 2 marks each= **08**(Answer 04 Questions out of 04)

- d) 1question of 10 marks =**10** (Answer 1 Questions out of 2)

Maximum Marks: 40

Minimum for Pass A separate minimum of 45% marks for external is required for a pass for a Theory course. However (a) A candidate who secures not less than 45% marks in a subject at the end semester examinations and (b) not less than 50% of the total marks assigned to the subject, shall be declared to have passed the examination in that subject. The total marks assigned to a subject in the above calculations are the sum of maximum marks assigned to the end-semester examination and maximum internal assessment marks of that subject. Hence Minimum marks for a pass in each theory course shall be 50% (marks obtained in internal and external evaluation put together). A candidate shall be declared to have passed the programme if s/he obtains not less than 50% of marks in each Theory courses, in each Practical course, in each EPC courses and Internship as well as 50% of the total marks assigned to the whole programme

A student who does not secure this pass marks in one or more subject/component will have to repeat the respective course. Candidates shall not be allowed to improve the grade already obtained. However cancellation and reappearance will be permitted.

If under any circumstances, a candidate fails in School internship, he/she may be permitted to repeat the School internship after the completion of Semester II with special permission from the University as long as the same scheme exists. It will be considered as a Second appearance in all respects.

Classification of Successful Candidates

No classification of results will be done during the first, second and third semesters. The classification of the results will be done after combining the marks of first, second, third and fourth semesters. The classification of results will be as follows.

(a) A candidate who qualifies for the degree, passing all the subjects of the four semesters, in 2 academic years after the commencement of his course of study and secures not less than 80% marks in aggregate of all the semesters shall be declared to have passed the B.Ed. degree examination in First Class with Distinction (b) A candidate who qualifies for the degree, passing all the subjects of the four semesters within 2 academic years after the commencement of his course of study and secures not less than 60% marks in aggregate of all the semesters shall be declared to have passed the B.Ed. degree examination in First Class. (c) All other candidates who qualify for the degree passing all the subjects of the four semesters and not covered at least (b) shall be declared to have passed the B.Ed. examination in second class.

Practical Examination and Viva Voce

Practical examination will be conducted in the 4th semester by an External Examination Board constituted by the university. The present practice of zonal boards is to be continued. The Zonal Board will consist of a Chairman, Subject expert for each Optional Paper. The subject

expert for the Optional Paper will conduct Practical Examination for the concerned Optional. The board shall observe and assess the teaching competency of all candidates for a maximum of **75 marks** and conduct a Viva-Voce on the subject. Each student should attend the viva-voce on pedagogy of their subject (**for 25 marks**). There shall be no minimum for a pass in viva- voce. If the number of candidates in an Optional subject is more than 20, an additional examiner can be appointed. The University will constitute the required number of Zonal Boards to complete the Practical Examination in all centers in a duration of 8-10 days. Practical examination will be scheduled and carried out simultaneously in all the colleges and completed at least two months before the end of Semester IV to facilitate a smooth completion of academic programmes in the Colleges. The duration of the Practical Examination in an institution will be two days for an intake of 100 students. Additional days will be provided depending on the intake of the institution. A Co-coordinating Chairman will be appointed by the University who will co-ordinate the work of zonal boards. The Coordinating chairman has to randomly check the assessment of Zonal Boards and make corrections, if necessary. The final Mark List of Practical Examination has to be forwarded to the Controller of Examination.

Special Duties of the chairman of the Board

The Chairman of the External Board of Examiners shall also examine the products and documents related to all practical courses and tasks and assignments of all theory courses (as per list given in annexure I) of the 1st, 2nd and 3rd semesters of randomly selected students with a view to monitor the effectiveness of the carrying out of practicals which are internally evaluated. The Chairman of the Board of Examiners shall ask not less than 5% of the total students of the college to showcase the products and documents that have been internally evaluated in the college during the first three semesters. The chairman will assess the quality of work done in the college by physically examining the products and also through a viva voce of the selected students. He will not however see or manipulate the internal marks already given by the college in this regard. The Chairman of the External Board of Examiners will certify the standard of students' work done in the college by giving a signed statement in this regard (as given in pro forma I) to the Controller of Examinations along with marks statement of the practical examination

Maximum Marks: 100 (External: 80, Internal: 20)

COURSE OBJECTIVES

1. To acquaint with the nature and values of computer science education.
2. To understand Aims and Objectives of teaching computer science
3. To familiarize the developmental trends of computer science
4. To understand Approaches, Methods and Techniques of Teaching Computer Science
5. To understand the principles of Organizing Curriculum

COURSE CONTENT

Unit I

Introduction to teaching computer science

- Meaning, definition, nature and scope of computer science
- An overview of the history of the development of computer science as a special discipline. Familiarisation of typical projects on computer education such as European school project, STREET project, etc.
- Need and significance of teaching computer science.

- Computer Science as a core subject and its relation to other disciplines. Use of computers as a teaching aid for other subjects.
- Future of computer science in view of unbelievably fast changes.

(16 Hours)

Unit II

Aims , Objectives and Values of Teaching Computer Science

- Aims and Objectives of Teaching Computer Sciences at Primary, Secondary and Higher Secondary stages.
- Conceptual, Inquiry, Skill and Affective Objectives of Computer science
- Bloom's Taxonomy of Educational Objectives
- Revised Bloom's Taxonomy by Anderson and Krathwohl
- Values of Teaching Computer Science : Practical values of Computer with reference to scientific and technological developments in all domains of knowledge, Cultural values with reference to Communication facilities binding humanity as a whole. Recreation and utilization of leisure time Spread of universal and continuing education.

(20 Hours)

Unit III

Teacher Behaviour and Micro Teaching

- Teaching -Meaning, Definition, Principles and Functions
- Phases of Teaching
- Maxims of teaching
- Teacher behaviour
- Teaching skills
- Micro teaching – Meaning, Definition, Phases ,Micro Teaching Cycle , Link practice and preparation of micro teaching Lesson plan

(20 hours)

Unit IV

Computer Science Curriculum

- Meaning and Definition of Curriculum
- Curriculum, Syllabus, Text book and Interactive textbook
- Principles of Curriculum Construction
- Fusion, Integration and Correlation in Computer science Curriculum
- Organizing science curriculum – Topical, Spiral and Unit Approach
- Approaches to Curriculum Construction : Grass root approach, Administration approach, Demonstrative approach
- Modern Trends in Computer Science Curriculum
- Scope of Computer based Evaluation.

(20 Hours)

Unit 5

Method and Strategies of teaching computer sciences

- lecture method, Lecture cum demonstration method, Heuristic method, seminar, discussion method, problem solving method, Project Method

- Collaborative learning, Managing Group learning in a classroom Critical Pedagogy
- ICT enabled learning: Self learning – Programmed learning – Computer assisted learning, e-learning, m-learning, LMSs.
- Web based discussions: chat rooms, discussion forums, etc.
- Learning Strategies : Meta-cognitive learning Strategies, Brain Based Learning, Exploratory and investigatory learning, Discovery Learning & Concept Mapping.
- Electronic resources & e-content, e-content development.

- Taxonomy of educational objectives- Blooms Taxonomy, Revised Bloom's Taxonomy- a conceptual overview

(17 Hours)

Unit III.

Micro teaching

- Teaching -Meaning, Definition, Principles and Functions
- Phases of Teaching
- Maxims of teaching
- Teaching skills
- Micro teaching – Meaning, Definition, Phases ,Micro Teaching Cycle , Link practice and preparation of micro teaching Lesson plan

(22 Hours)

Unit IV

Approaches, methods and techniques of teaching mathematics

- Behaviourist approach, problem based learning, constructivist approach and heuristic approach
- Methods of teaching mathematics- Inductive-Deductive method, Analytic-Synthetic method, Project method, laboratory method, problem solving method
- Techniques of teaching mathematics- questioning, brainstorming, assignment
- Teaching for understanding proofs, Kinds of proofs- direct, indirect, by mathematical induction, by contradiction, by causes, the contra positive and disproof by counter example.

(23Hours)

Unit V.

Mathematics curriculum

- Curriculum- meaning, types
- Curriculum development: Construction, organisation and evaluation-
- Principles of Mathematics curriculum construction, principles and approaches of curriculum
- Organisation
- Mathematics curriculum reforms - SMP, SMSG, NCERT, NCF, KCF, Nuffield

(18Hours)

MODE OF TRANSACTION

Lecture cum discussion, Brain storming, assignment and Seminar

TASK AND ASSIGNMENTS

1. Critically analyse the implications of SMP/SMSG/Nuffield in secondary school mathematics curriculum in Kerala with the supporting evidences (interview/questionnaire, content analysis etc. Items for interview or questionnaire may be framed based on each dimension of the concerned reform)

- Science Education as envisaged in the NCF (2005), KCF(2007).

(14Hours)

Unit II

Micro teaching and models of teaching

- Micro teaching-micro teaching cycle-Teaching skills for class room instruction, Essential skills for Science teaching, Micro teaching - a skill based practice.
- Models of Teaching –Meaning and concept, Families of Models of Teaching, Elements of a model
- Concept Attainment Model, Inquiry Training Model and Advance Organizer Model

(20 hours)

Unit III

Approaches, methods and techniques of teaching science.

- Teaching - Maxims of teaching.
- Inductive, Deductive, Enquiry, Discovery and guided discovery Approaches .
- Methods of Instruction – Lecture, Lecture cum demonstration method,
- Heuristic method, Project method, Problem solving method,
- Dalton Plan, Individual laboratory method and activity based learning (ABL)
- Teaching techniques and strategies- Questioning Technique, Discussion, Brain storming, Role Playing, simulation, Seminar and Debate and panel discussion

(24 Hours)

Unit V

Learning as a generative process

- Constructivism- conceptual frame and underpinning theories
- Cognitive Constructivism and Social Constructivism,
- Behaviourist approach Vs Constructivist approach.
- Collaborative learning, jig-saw learning-Managing Group learning in classroom
- .Learning as a Generative process- Role of a teacher and learner in these contexts
- Critical Pedagogy and issue based learning
- Review of the latest happenings in the state schooling procedures.

(20 Hours)

Unit V

Science education

- **Science and society**-Science as a social Endeavour; Scientific Literacy, Influence of science on society.
- Misconceptions in Science – Examples of common misconceptions in students, Role of teachers in overcoming student misconceptions.
- The Science Teacher and Society. Roles of science teacher in modern society
- **Science Curriculum** -A conceptual analysis, Curriculum and syllabus, Hidden curriculum

- Principles of curriculum construction.
- Stages of curriculum development. Approaches to curriculum organization, Integrated, Disciplinary and Inter disciplinary approach.
- Curriculum reforms abroad-BSCS, Nuffield Foundation.
- Correlation in science teaching -Need and Significance, Types of correlations- Incidental correlation, Systematic correlation, Correlation of science with other subjects.

(22 Hours)

MODE OF TRANSACTIONS

Lecture, Demonstration, Seminars, Discussions

TASKS AND ASSIGNMENTS

1. Prepare a lesson transcript based on any one models of teaching prescribed in syllabus.
2. Write a script for the Role play of a Biological theme and enact it in a school class and reflect

EDU 05.12 THEORETICAL BASES OF TEACHING PHYSICAL SCIENCE

Contact Hours: 100 (Instruction)
20)

Maximum Marks: 100 (External: 80, Internal:

COURSE OBJECTIVES

1. To acquaint with the nature and evolution of physical science
2. To understand Aims and Objectives of teaching physical science
3. To develop proper teacher behavior among teachers
4. To understand the principles of organizing Curriculum
5. To familiarize with methods and Strategies of teaching physical science

COURSE CONTENT

Unit.1

Introduction to teaching physical science

- Meaning, definition, nature and scope of physical science
- Science as a product and process
- Evolution and significance of physical science as a school subject
- Values of teaching physical science in the present context
- Scientific Attitude and Scientific Aptitude
- Branches of science, Emergence of interdisciplinary subjects

(16 Hours)

UNIT II

Aims , objectives and values of teaching physical science

- Aims and Objectives of teaching Physical Science
- Objective based instruction and evaluation, objectives and specific objectives, learning experience and evaluation
- Bloom's Taxonomy of Educational Objectives
- Revised Bloom's Taxonomy by Anderson and Krathwohl
- Taxonomy of Mc Cormack & Yager
- Digital Taxonomy
- Process skills in Science at secondary stage, Developing process skills in students.

(20 Hours)

Unit III

Teacher behaviour and micro teaching

- Teaching -Meaning, Definition, Principles and Functions
- Phases of Teaching
- Maxims of teaching

- Teacher behaviour
- Teaching skills
- Micro teaching – Meaning, Definition, Phases ,Micro Teaching Cycle , Link practice and preparation of micro teaching Lesson plan

(20 hours)

Unit IV

Physical science curriculum

- Meaning and Definition of Curriculum
- Curriculum , Syllabus and Text book
- Principles, Foundation and Stages of Curriculum construction
- Correlation in science teaching
- Organizing physical science curriculum – Topical, Spiral and Unit Approach
- Approaches to Curriculum Construction - concentric plan, topic method, type study. Integrated, Disciplinary and Interdisciplinary Approaches Grass root approach
- CBA, CHEM, PSSC

(20 Hours)

Unit V

Method and strategies of teaching physical sciences

- Methods of Instruction: Lecture cum demonstration method, Project method, Problem solving method, Individualized laboratory method, Dalton Plan, Supervised study.
- Teaching techniques and strategies- Brain storming, Questioning Technique, Buzz discussion- Debate, Symposium, Panel Discussion, and Seminar. Concept map, Mind Map, Analogies, Blended learning, Problem-based Learning (PBL), Mnemonics, Graphic organizers

(24 Hours)

MODE OF TRANSACTION

Lecture, discussion, demonstration, small group activities, seminars etc.

TASKS AND ASSIGNMENTS (Any Two of the following)

3. Construct a mind map for any topic in Physics or Chemistry at the higher secondary level.
4. Critically evaluate Physical Science Textbook at Secondary level based on Principles of Curriculum Construction
5. Develop a module for a single topic emphasising the development of any 5 process skills in secondary students.

SEMESTER I

B. Practical Courses

EDU 101 MICRO TEACHING (30 Hours- 30 Marks)

COUSE OBJECTIVES

1. To develop specific teaching skills
2. To build up confidence in teaching
3. To practice and refine teaching skills
4. To provide feedback for modification of teaching behavior

Student teachers shall practice and refine at least **5 *teaching skills*** through micro practices and their Integration through Link practice. They have to prepare micro lessons, and receive feedback from peers and teacher educators. Keep a record of micro lessons, link practice lesson, and observation schedules on the skills practiced and improved upon. **(Micro practice= 20 marks; Link practice=4 marks; Record=6 marks)**

EDU 102 COURSE ON EPC 1: LANGUAGE ACROSS CURRICULUM – READING AND REFLECTING ON TEXTS (50 Hours -50 Marks)

COURSE OBJECTIVES

Upon completion of this course, the student teacher will:

1. Develops ability to comprehend the language of texts, teacher and learner and various other instructional contexts
2. Improve his/her proficiency in ‘reading’, ‘writing’, ‘thinking’, and ‘communicating’ in the language of instruction
3. Develop an interest in reading
4. Improve his/her ability to understand instruction

This is a major practical course suggested by NCTE curriculum framework. The course enable the learner to analyse the language of teacher, learner and text books of different subjects and contexts. This course also serve as a foundation to enable B.Ed. students to read and respond to a variety of texts in different ways and also learn to think together, depending on the text and the purposes of reading. Responses may be personal or creative or critical or all of these together. Students will also develop metacognitive awareness to become conscious of their own thinking processes as they grapple with diverse texts. In other words, this course will enable student-teachers to enhance their capacities as readers and writers by becoming participants in the process of reading. The aim is to engage with the readings interactively- individually and in small groups. This involves framing questions to think about, while preparing to read something, reading a text, and reflexively placing what one has read in the context of both the texts and one’s own experiences.

This course offers opportunities to confront with use of language in different curricular contexts including textbooks, classrooms and other formal and informal learning contexts.

The learner also gets opportunity to read a wide variety of texts, including empirical, conceptual, and historical work, policy documents, studies about schools, teaching, learning, and about different people’s experiences of all of these. The course will also include narrative texts,

expository texts from diverse sources, including autobiographical narratives, field notes, ethnographies, etc. to address different types of reading skills and strategies.

For expository texts, they will learn to make predictions, check their predictions, answer questions and then summarize or retell what they've read. Students will analyze various text structures to see how these contribute to the comprehension of a text. These readings will also provide the context for writing. Combining reading and writing leads to the development of critical skills. Student-teachers will get opportunities to write with a sense of purpose and audience, through tasks such as, responding to a text with one's own opinions or writing within the context of others' ideas.

Tasks = 50 marks

1. Identify and analyse the specific languages used in different curricular contexts – Language of textbooks of different subjects, Language of Examinations, Language of articles seminars/debates/workshops etc and language usage in other Formal and informal instructional contexts. Prepare a report (10 Marks)
 - a. Activities
 - i. Prepare a list of terminologies in English and local language of a subject text book at primary/secondary/higher secondary level
 - ii. Analyse a question paper of an examination and prepare a list of usages for different types and levels of test items
 - iii. Make a comparative analysis of structure of presentation and Specific language used in an article/ seminar/ debate/ workshop etc and prepare a report (Utilise one sample article/ programme details of a seminar/workshop/debate)
2. Observe two subject classes of secondary schools and record the discipline based language, teacher language and student language while discourse. Make a comparative analysis (10 Marks)
 - a. Activities
 - i. Visit a school and interact with subject teachers on discipline specific language
 - ii. Observe two subject classes of two different teachers
 - iii. Identify and list the use of discipline specific language, teacher language and student language simultaneously
3. Engaging with narrative and descriptive accounts (6 marks)
 - a. Activities
 - i. Select a text (A short story/ chapter of a fiction/ dramatic incident/ part of a travelogue/ comic etc.)

4. Engaging with popular subject-based expository writing (6 marks)

- a. Activities**
 - i.** Select articles, biographical writing, or extracts from popular nonfiction writing, with themes that are drawn from the subject areas of the student teachers (various sciences, mathematics, history, geography, literature/language pieces etc.)
 - ii.** Preliminary reading (Individually)
 - iii.** Secondary Reading (in small groups formed based on subject interest)
 - iv.** Identify major concepts and subordinate ideas and prepare notes using diagrams, concept maps, graphs etc (In small groups)
 - v.** Prepare a separate note on writing style, view point of the author, subject specific vocabulary and references used (in small groups)
 - vi.** Prepare and submit a review/ summary of the text incorporating conceptual as well as style element (Individual)
5. Engaging with journalistic writing (6 marks)
 - a. Activities**
 - i.** Select an article from newspaper or magazine of contemporary interest
 - ii.** Initial reading - Practice skimming and scanning for extracting information (Individually)
 - iii.** Analyse structure of the article (in Small groups)
 - iv.** Identify subheadings, key words, sequence, illustrations, statistical data in tables/graphs etc (In small groups)
 - v.** Critical reading to identify view points, subjectivity or personal bias, journalistic and metaphoric language etc. (in groups)
 - vi.** Writing a popular article on a topic of contemporary interest (Individually)
6. Engaging with subject-related reference books (6 marks)
 - a. Activities**
 - i.** Form small groups based on their subject
 - ii.** Select a topic in their subject area by each group
 - iii.** Identify reference books available in the library for the topic
 - iv.** Scanning and skimming relevant information from reference books
 - v.** Making and collating notes
 - vi.** Organize the information under various headings
 - vii.** Plan a presentation of concepts to whole group
 - viii.** Presentation to whole group
 - ix.** Conduct a question answer session
7. Engaging with educational writing (6 marks)
 - a. Activities**
 - i.** Select an essay, chapter or extract from popular educational writings deal with issues and topics related with education, schooling, teaching learning process
 - ii.** Random grouping
 - iii.** Reading and discussion on main ideas, arguments, terminologies and examples used
 - iv.** Writing a review paper
 - v.** Present the review to whole group

EDU 103.YOGA, HEALTH AND PHYSICAL EDUCATION-I - (30 Hours -20 Marks)

1. Practicing and recording of health related physical fitness activities. (Walking/ jogging/ aerobic dance/ weight training/ cycling)
8 marks
2. Practicing 15 yogasanas (5 each in standing, sitting, and laying positions)
8 marks
3. Body composition –BMI/body shape index/skin fold caliper

EDU 06: PERSPECTIVES ON EDUCATION

Contact Hours: 50 (Instruction)

Maximum Marks: 50 (External: 40, Internal: 10)

COURSE OBJECTIVES

This course will enable you to

1. To understand education as a discipline
2. To define education
3. To develop an understanding of major philosophical divisions and their relevance in education
4. To identify the relationship between education and social factors
5. To develop an understanding of Indian and western philosophical schools

COURSE CONTENT

Unit I

Teacher and Education

- Education as a discipline - Education as bipolar and tri polar process - Child centered a life centered education –
- Teaching as a profession - Teaching- An art and Science – Teacher - Qualities and Competencies Teacher Ethics- Teacher as a Leader -Role and Responsibilities of Teacher
- Teacher as a Change agent and Nation builder- Teacher as Social Transformer - Role of education to curb Social evils like Corruption, Terrorism, Antinational activities, Violence against women, Drug abuse and Alcoholism etc.

(10 Hours)

Unit II

Philosophy of Education

- Etymological and general meaning of Philosophy – Major Definitions
- major philosophical divisions - Axiology, Metaphysics, and Epistemology and its educational implications.
- Relation between education and philosophy
- Functions of philosophy.

(10 Hours)

Unit III

Sociology of Education

- Sociology – etymological meaning and definitions.
- Relationship between sociology and education.
- Educational sociology and its functions.
- Social Structure and Function - Social System and Education as socialization.

- Pedagogy & Andragogy.
- Content analysis –Pedagogic analysis— objectives & components.
- pedagogic analysis of Urdu of 8th & 9th standard.

(25 hours)

Unit IV

Planning of Instruction

- Importance of planning—year plan, unit plan, lesson plan.
- Steps of lesson plan.
- Types of planning—behaviourist, constructivist---prose & poem.

(20 hours) .

UNIT V

Resources of Teaching

- Audio-visual aids—Radio, TV, Tape recorder, OHP, Computer, Language lab, Video clippings, pictures, charts, flashcards , models etc. Importance of library in language learning.
- E-library, Inlibnet. Principles of selecting language books.

(15 hours)

Unit VI

Evaluation

- Evaluation - Different types of test items - merits and demerits.
- Construction and administration of Achievement tests.
- Continuous and Comprehensive Evaluation,
- Diagnosis and remediation - Diagnostic test-importance-process of construction –
- Remedial teaching— meaning.
- Grading—importance & types

(10 hours)

MODE OF TRANSACTION

Lecture, Discussion, Seminar, Reading and Reflection

TASKS AND ASSIGNMENTS

1. Preparation and administration of a diagnostic test and a remedial lesson after its analysis
2. Analysis of Urdu text book of IX Std.

EDU 09.8 PEDAGOGIC PRACTICES IN COMMERCE

Contact Hours: 100 (Instruction)

Maximum Marks: 100 (External: 80, Internal: 20)

COURSE OBJECTIVES

1. To understand the pedagogy of Business studies and Accountancy of 11th and 12th standard
2. To develop skill in analysing the content of higher secondary commerce text book
3. To acquaint with planning of instruction
4. To understand the theoretical bases of constructivism and behaviourism
5. To provide familiarization with Teaching Learning Materials in Commerce
6. To acquire and develop the abilities to prepare and use appropriate instructional aids and
 - a. materials for teaching commerce and accountancy
7. To intertwine models of teaching for understanding the concepts of business studies and accountancy
8. To understand the evaluation techniques and prepare test items as per the existing state syllabus pattern in Business studies and Accountancy

COURSE CONTENT

Unit 1

Pedagogic Analysis of Commerce Subjects

(20 Hours)

- Pedagogic Analysis - Meaning, Importance, Steps and Scope
- Content Analysis - Meaning and Process-Terms, Facts, Concepts, Principles, Theory, Process
- Analysis of Business studies and Accountancy of plus one and plus two of Kerala state

Unit II

Planning of Instruction

(25 Hours)

- Meaning, importance and steps in Year Planning, Unit planning and Lesson Planning, Herbartian approach and Evaluation approach
- Resource Unit, Meaning and purpose.
- Theoretical base of Behaviourism
- Theoretical base of Constructivism- Piaget, Bruner, Vygotsky, Gardner
- Critical Pedagogy- Problem Posing Education
- Lesson Planning in Constructivist approach

Unit III

Teaching –learning Resources in Commerce

(20 Hours)

- People as resource: The significance of oral data

- Primary and secondary sources: Field visits, textual materials, journals, magazines, newspapers etc.
- Community resources and ways of utilizing community resources
- Commerce Library-importance
- Commerce Textbook-qualities and functions, Criteria for selection-Textbook review.
- Workbooks, handbooks and reference materials
- Supplementary materials in Commerce- Need and Importance – Source Documents used in teaching of commerce subjects
- Audio-Visual aids –Projected aids, Non Projected aids and Activity aids.
- ICT enabled lesson planning

Unit IV

Models of Teaching in Commerce

(15 Hours)

- Meaning and definition of Models of Teaching
- Families of Models of Teaching
- Basic Elements to describe a Model
- Concept Attainment Model
- Advance Organizer Model
- Jurisprudential Inquiry Model

Unit V

Assessing the Learner

(20 Hours)

- Types of test items-merits and Demerits- prepare various types of test items from accountancy and business studies
- Construction and administration of Achievement tests
- Construction and administration of Diagnostic tests

MODE OF TRANSACTION

Lecture, Discussion, Group work and Project, Assignment, Seminar, Debate

TASKS AND ASSIGNMENTS (20 Marks)

1. Preparation of Resource Unit for any unit from Accountancy and Business Studies
2. Prepare Question Bank based on revised blooms taxonomy for various type of test items either from accountancy or from business studies

4. Prepare a Year plan, Unit plan and a Lesson Plan for a Secondary level Computer Science Text book

EDU 09.10 PEDAGOGIC PRACTICES IN MATHEMATICS

Contact Hours: 100 (Instruction)

Maximum Marks: 100 (External: 80, Internal: 20)

COURSE OBJECTIVES

1. To understand the pedagogic analysis of Mathematics and develop competency in analysing various topics in mathematics pedagogically.
2. To develop understanding about planning of instruction
3. To make proficient in planning lessons based on the select models of teaching.
4. To familiarise with various resources for teaching/ learning mathematics
5. To understand the evaluation techniques and tools for assessing the learner comprehensively.
6. To develop competency in developing Achievement and Diagnostic tests in mathematics.
7. To make proficient in interpreting test results and remediation.

Unit I

Pedagogic Analysis

(20 Hours)

- Pedagogic analysis- Meaning, importance, steps
- Pedagogic analysis of various topics in mathematics at various level of Schooling— Arithmetic, Algebra, Trigonometry, Statistics and Probability, etc.- listing objectives, pre requisites, resources, strategies for teaching, evaluation strategies etc.

Unit II.

Planning for Instruction

(24 Hours)

- Stages of planning instruction- year plan, unit plan, lesson plan- importance and steps
- Planning of lessons in constructivist format and behaviourist format
- Implication of theories of Piaget, Bruner and Gagne in Mathematics teaching

Unit III.

Models of Teaching

(16 Hours)

- Models of teaching- meaning, definitions, characteristics
- Families of models of teaching
- Concept attainment model, Inquiry training model, Inductive thinking model- theoretical orientation, criteria for selecting a model for Mathematics teaching and lesson planning

Unit IV

Resources in Mathematics Education

(20 Hours)

- Text books, hand books/teacher texts, work books, reference books, supplementary readers- Need and importance of each.
- Audio- visual aids, Improvised aids- Meaning and importance.
- Familiarising programmes for teaching mathematics in Edubuntu (Practical oriented)
- Mathematics lab- importance, organisation and equipments.
- Mathematics library- role, organisation and effective functioning

Unit V

Assessment for Mathematics Learning

(20 Hours)

- Continuous and Comprehensive Evaluation in mathematics learning.
- Formal and informal tools/techniques for evaluating mathematics learning
- Formal: Achievement test, diagnostic test, observation, rating scale, checklist
- Informal assessment strategies: Application cards, exit cards, graphic organisers, guided reciprocal peer questioning.
- Construction of achievement and diagnostic tests- steps-types of questions (construction, merits & demerits of each) - interpretation of test results, diagnosis and remedial measures

MODE OF TRANSACTION

Lecture cum Discussion, assignment, demonstration, Small group discussion

TASK AND ASSIGNMENTS

1. Prepare a year plan for teaching Mathematics based on 8th / 9th standard text book in Kerala.

2. Prepare a work book on any unit in Mathematics of 9th standard

EDU 09.11 PEDAGOGIC PRACTICES IN NATURAL SCIENCE

Contact Hours: 100 (Instruction)

Maximum Marks: 100 (External: 80, Internal: 20)

COURSE OBJECTIVES

1. To understand the Aims and Objectives of Teaching Science
2. To understand and practice the pedagogic analysis of 8th, 9th and 10th Biology.
3. To acquaint with the co-curricular activities in Science.
4. To have a hands-on approach in organizing and maintaining library and laboratory in science.
5. Identifying the various resources for biology teaching
6. To understand the Evaluation techniques and prepare objective based test items as per the existing state syllabus pattern in Science.

Unit I

Aims and Objectives of Teaching Science

- Aims and Objectives of teaching Natural Science.
- Broad National Goals.
- Taxonomy of educational objectives-Bloom's Taxonomy
- cognitive affective and psychomotor domains
- Revised Bloom's Taxonomy,
- Mc Cormack & Yager Taxonomy. Process skills in Science at secondary stage, Developing process skills in students.

SEMESTER II

B. .Practical Courses

EDU201.1 PEER DISCUSSION LESSONS (20 Hours- 20 Marks)

COURSE OBJECTIVES

1. To understand the concept and importance of Lesson Planning in classroom teaching
2. To strengthen the conceptions of lesson planning
3. To provide guidelines to you during teaching practice
4. To maintain the sequence of content presentation
5. To provide you a forum to discuss various facts of Lesson Planning
6. To develop attitude towards teaching
7. To prepare lesson plans on the basis of various approaches/methods of teaching
8. To discuss lesson plans with peers and teacher educators
9. To improve the competency of lesson planning

Student teachers shall prepare at least **8 discussion lesson plans** in constructivist format (VIII, IX & X)/XI & XII for trainees with PG) in groups and keep a record of them (**Contribution of ideas and participation in discussion=10 marks; Record of lessons=10 marks**)

EDU201.2 OBSERVATION LESSONS& FACULTY DEMONSTRATION LESSONS (10 Hours- 10 Marks)

COURSE OBJECTIVES

1. To observe teaching skills, and the participation of students in the lessons
2. To observe teacher/teaching behaviour in various teaching learning situations

a. Video lesson.

One Video Lesson of teacher educators/experts have to be observed by student-teachers individually or in groups and observation notes has to be prepared. **(2 marks)**

- ##### **b. Student-teachers should observe Four Demonstration lessons in constructivist format by teacher educators and school mentors. Observe demonstration classes only with observation schedules. Keep a report of the observations made during demonstration lessons. (8 marks)**

EDU 201.3 CRITICISM LESSONS (30 Hours- 30 Marks)

COURSE OBJECTIVES

1. To provide opportunity for a macro lesson in practice
2. To develop the skill of structured observation of classroom teaching
3. To get experience of preparing lesson plans for classroom teaching
4. To provide opportunity for debating on teaching performance.
5. To pool feedback of all observers of a specific lessons.

Criticism classes should be arranged optional wise.

- i) Student teachers shall have dual role in this activity.
- ii) As performers they have to conduct a macro lesson for duration of 40 minutes in VIII or IX (X1 for commerce and Computer Science).
- iii) As observers they need to observe the Criticism Lessons taken by their peers.

- iv) A student teacher should observe and record criticisms of at least eight lessons (8) of his/her peers in the subject. For this purpose schedule of criticism classes and topics selected for them shall be published well in advance.
- v) Each student teacher shall prepare eight (8) lesson plans of the schedule and attend those criticism classes.
- vi) Observers will be permitted for criticism sessions only with self-prepared lesson plans.

If the number of student teachers in any optional falls below nine (9), repeat lessons should be conducted so as to enable all of them observe, record and debate eight criticisms lessons.

(Sharing of valid feedback and participation in the debate=15 marks; Teaching performance =5marks; Record of lessons and criticisms=10marks)

EDU 201.4 PREPARATION OF TEACHING –LEARNING MATERIALS (WORKSHOP) (20 Hours- 20 Marks)

COURSE OBJECTIVES

1. To nurture ideas of preparing relevant teaching aids for identified content areas
 2. To develop creative instincts
 3. To give chance for expression of ideas
 4. To develop feeling of conservation of thrown out materials
- (i) Improvisation/ Preparation of handmade teaching aids/ learning aids from locally available resources. Student teachers shall visualize relevant aids in their subject areas and bring necessary materials to the college and prepare two models/teaching aids in a workshop conducted for the purpose **(10 marks)**
 - (ii) Charts and other graphic aids: - Student teachers shall prepare charts, sketches, Symbols etc. in another workshop conducted for the purpose. 5 Charts- (Tabular Charts, Flow/Process charts. Tree charts. Flipcharts etc.) **(10 marks)**

EDU 201.5 INITIATORY SCHOOL EXPERIENCES (30 Hours- 20 Marks)

COURSE OBJECTIVES

1. To provide the student-teacher an opportunity to have primary experiences with the functioning of the school.
2. To develop conceptual understandings about teaching and learning in school environment
3. To validate the theoretical understandings developed through various foundation and pedagogy courses
4. To understand and develop meaningful learning sequences appropriate to the specificity of different levels of learning
5. To mobilize appropriate resources for them.

This school attachment programme is for a period of five continuous working days, giving them an opportunity to acquaint with the school environment and the day-to- day functioning.

Student teachers recognize

(i) School as an 'organized' Endeavour Functioning within a 'structure' with defined roles and responsibilities Internal arrangements for coordinated functioning-time table, work allocation,

differential responsibilities, planning and coordination procedures External liaison – with parents, community, authorities.

(ii) School as an 'Enabling Learning Environment'- What 'enables' learning in schools? Nature of school environment; Learner perceptions; teacher perceptions; parental/community perceptions Nature of inter relationships between and among learners-teachers; teachers; teacher principal; parents-school; office-teachers-learners Nature of 'impact' generated in school

(iii) Classroom as a Learning Site - modalities, learning resources used, student reactions and any relevant related points

Observation of lessons of senior teachers individually or in small groups, meeting the students informally to learn their background and their interest in learning, seeing the learning facilities in the school, observing the social climate in the school etc., are some of the activities to be undertaken during this period. Each student-teacher has to engage 3 lessons individually or as shared practice. In shared practice, student-teachers will be in small groups of three members. The lessons will be divided into three parts and each student teacher will practice one of the parts by rotation in the natural classroom situation. Lesson plans need not be written with the rigidity as employed for Practice Teaching lesson. The student-teachers have to maintain a detailed diary as a record of the visit.

After the initiatory school experiences, a reflection session should be organized in the college. Institutions can depute the Optional teacher for organizing and assessment of initiatory school experiences. 100% attendance is compulsory

ASSESSMENT INDICATORS OF INITIATORY SCHOOL EXPERIENCE

	Components	Marks
1	Teaching performance as Shared Practice	4
2	Teaching performance through individual effort	4
3	Observation of 5 lessons of senior teachers + Observation report	4
4	Observing the social climate and learning facilities in the school	4
4	Maintenance of diary	4
	TOTAL	20

SEMESTER III

Practical Courses

EDU.301.SCHOOL INTERNSHIP (16 weeks- 260 Marks)

The Internship Program forms an integral and important component of B.Ed. programme; internship serves as a capstone experience that informs about and prepares them for the expectations of and how to succeed in the profession. Student teaching internships is an essential component for a student's success as a professional teacher. Student Teaching Internships provides students the opportunity to practice what has been learned on the university campus and, more importantly, it is an opportunity to continue academic and professional growth.

COURSE OBJECTIVES

1. To observe children and the teaching learning process in a systematic manner.
2. To understand the content and pedagogical principles, issues and problems related to teaching
3. To develop a repertoire of resources which can be used by the intern later in her teaching—textbooks, children's literature, activities, games, and excursions
4. To participate in teaching school subjects for the children of Class VI to X.
5. To experience the school in its totality

6. To assume the role of a regular teacher with appropriate planning taking into account the diverse needs of students and the varying contexts that impact the teaching learning process.
7. To acquire competencies and skills required for effective classroom teaching, class management and evaluation of student learning, organization of co-curricular activities, and working with the community
8. To be able to innovate within existing systemic limitation
9. To critically reflect on her own school experiences and keep records of the same.
10. To learn to assess different aspects of children's learning without a focus only on Achievement.
11. To develop proper professional attitudes, values and interests.
To familiarize with the existing educational scenario of the respective states.

The school internship is designed to enable the student-teachers to connect theory to practice and to help them acquire a perspective regarding the aims of education within which their previously acquired knowledge and practices can be systematized and structured to enable them to teach effectively.

The purpose of the internship programme is to provide the student (intern) with the opportunity of undergoing a meaningful experience as a practitioner. As conceived, the programme should be structured so that it is a partnership between the school and the college. The intern must function as a regular teacher and therefore be immersed in all aspects of the school.

During the school-internship the student teacher is expected to observe classroom teaching of mentors/ peers, to get insights into student behavior, instructional practices, student learning, learning environments and classroom management.

The student-teacher is expected to critically reflect and discuss these practices and engage in activities like maintenance of records and registers, preparation of lesson and unit plans using different artifacts

and technology, classroom management, activities related to school- community- parent interface, and reflections on self-development and professionalization of teaching practice. The other component of school-based activities to be carried out during internship is delivering the lessons/units of pedagogic courses.

The activities undertaken during the internship period will be presented in Portfolios and **Reflective Journals**. The student-teachers are expected to record their experiences, observations and conclusions regarding all the activities undertaken. . The intern is also expected to maintain a daily reflective journal in which the intern will reflect on her practice and also attempt to draw linkages between pedagogy and the theory courses s/he has studied. The major purpose of the Reflective Journal is Reflection on-Action. Reflective Journal would include a brief description of how the class was conducted, how learners responded, reflective statements about his preparedness for the class, responses to learners' questions, capacity to include learners sharing of their experiences, responses towards their errors, difficulties in comprehending new ideas and concepts, issues of discipline, organization and management of group, individual and group activities etc.

The internship will be organized for a continuous period of **16 weeks** in selected schools. Necessary orientation to the cooperating teachers and headmasters will be organized at the Institute. The School Internship Programme could include undertaking classroom-based research projects; developing and maintaining resources in the Internship schools, administering of diagnostic tests and identifying of learning difficulties, conducting a case study/action research, organizing curricular and co-curricular activities etc. The intern must create democratic ethos, where student autonomy is enhanced and all students are treated with fairness and with respect.

For each student-teacher, internship should be conducted preferably in one school for the entire 16 weeks. However, if the institute wants to provide an opportunity to understand the context of teaching in a government and private school or the dynamics of teaching at elementary and senior secondary levels, this period can be divided into two blocks. Internship may be arranged in two blocks in such a way that teaching in one school at a particular level (for example elementary or senior secondary) during one block, is followed by the teaching in another school or the same school at another level during the second block. Under any circumstances, the student-teacher should not be sent to more than two schools during her/his internship period. Graduate students can be assigned standards VI to X and for post graduates from VI to XII. Only those students having Post Graduate degree in the concerned Optional Subject are permitted to teach at Higher Secondary School level.

The intern will necessarily have supervisory support from the faculty in the form of subject supervision, who will also assess the intern. The intern will be required to develop unit plans for which she must choose and design appropriate activities. A record of these plans must be maintained. Assessment should be developmental in nature, with clear emphasis on growth of the intern. Assessment Evaluation of performance during internship will be done on the basis of assessment by institute supervisors, cooperating teachers, headmasters, records, reports and student activities/assignments. Post-internship Activities and Follow-up activities are to be taken up by the Institute.

GUIDELINES FOR SCHOOL INTERNSHIP

1. The internship is to be organized as a single block program for a continuous period of **16 weeks -80 days** in selected schools.
2. For each student-teacher, internship should be conducted preferably in **one school for the entire 16 weeks -80 days**
3. Students should be assigned classes in **any two different standards** that too in **two different levels viz. elementary, secondary or senior secondary**
4. For student-teachers, classes spread over **VI to X**.
5. For post graduate student-teachers, classes spread over **VI to XII**. (Only those students having Post Graduate degree in the concerned Optional Subject are permitted to teach at Higher Secondary School level.)
6. For student-teachers of Commerce and Computer Science, classes spread over **XI to XII**.

EDU.302. COURSE ON *EPC 2: DRAMA AND ART IN EDUCATION* (30 Hours- 30 Marks)

Transformational education involves reflection, introspection and action, with a deep relationship between the head, heart and hand. The National Curricular Framework 2005 (NCF) reminds us that the school curriculum must integrate various domains of knowledge, so that the ‘curricular’ encompasses all, and is not separated from the co-curricular or extra-curricular. This has significant implications for the role of art, music and drama in education, to nurture children’s creativity and aesthetic sensibilities.

Learning is enhanced through Drama in Education which helps learners to extend their awareness, through multiple perspectives, to look at reality through fantasy, and to predict everyday situations in order to cope with unpredictable unsettling experiences. Drama in Education transcends the here and now, to travel through time - to the past, to the future, while it also allows us to freeze time. Thus we can live or relive moments and evoke or even recreate situations that can help us accept them better. Drama in Education is not merely doing theatrics or ‘acting’ in a superficial manner, but is for creating that ‘dramatic pressure’ or tension, where the student would arrive at a .problem or an understanding in a new way

The challenge is for prospective teachers to understand the medium, in order to transpose learners into a different time and space, to shape their consciousness through introspection and imagined collective experience. For instance, activities such as ‘hot seating’ can be used to raise critical questions addressed to characters from the textbook or those in history, to think about significant developments within diverse social contexts. This also helps to stretch the learner into areas of ‘discomfort’ and ‘confusion’, to then seek resolution, clarity and understanding. In the present context where children are growing up in starkly segregated environments, bounded by caste, class, religion or gender, drama must be used to potentially interrogate these categories - Who is the other? Why? How is the process of ‘othering’ happening in different lives? Mere moral sermons do not help build sensitivities. The ability to feel empathy for and relate with the other can be nurtured through drama based on experience, emotion and interpretation. It also gives opportunities for learners to recognize their agency, for transformational action. Drama as ‘critical pedagogy’ can move beyond the classroom, to invoke the collective consciousness and involve the community to participate in educational and social change. Teachers will need to

experience different genres of street theatre that continue to engage with life, through folk and contemporary traditions, improvising and critiquing, while mobilizing for transformative action

The course on Drama and Art in Education also helps in understanding the self and as a form of self-expression for enhancing creativity. The components of fine arts aim to develop aesthetic sensibilities in student-teachers and learn the use of art in teaching-learning. Student teachers will visit places of art, exhibitions and cultural festivals. Encouragement needs to be given to understand local culture and art forms and interpret art works, movies and other Media. Likewise other activities can be used to build trust and cooperation, the sense of responsibility, pursuing tasks collectively and exploring varied perspectives. Be it visual or performing, the practice of art deepens children's ability for perception, reflection and expression, providing them with alternative languages to experience and communicate subtle, diverse and unfamiliar territories, from human to the larger consciousness of nature. The challenge of teacher-educators lies not only in expanding the landscapes of children's art, but in also perceiving their world, their artistic processes and then from that sense of understanding, explore ways of assessing their work.

Suggested Tasks

Workshop for working with artists/artisans to learn basics of Arts and Crafts and understand its pedagogical significance. The Arts forms learnt during the course should be relevant to the student-teachers in their profession. SEMESTER IV

B. .Practical Courses

EDU.401 COURSE ON EPC 3: CRITICAL UNDERSTANDING OF ICT (30 Hours- 30 Marks)

Preparing teachers to use technology in a classroom is an important step for ICT enabled education in the country. This course will focus on moving beyond computer literacy and ICT-aided learning, to help student-teachers interpret and adapt ICTs in line with educational aims and principles. It will explore ICTs along three broad strands; ***teaching-learning, administrative and academic support systems, and broader implications for society.***

ICTs have often been seen as a stand-alone subject, consisting of a finite set of proprietary applications, taught to children directly by technology experts, bypassing teachers, which has diluted possibilities of teacher's ownership, enhancement of expertise and engagement. Seeing ICTs as an important curricular resource and an integral part of education, according primacy to the role of the teacher, ensuring public ownership of digital resources created and used in education, taking a critical perspective on ICTs as well as promoting constructivist approaches that privilege participation and co-creation over mere access, are principles that the course will help teachers explore. Applying these principles can support Teacher Professional Development models that are self-directed, need-based, decentralized, and collaborative and peer-learning based, and continuous, in line with the NCFTE, 2009 vision for teacher education

Since ICTs are technologies, along with developing such understanding, the course will also help student-teachers to learn integrating technology tools for teaching learning, material development, developing collaborative networks for sharing and learning. This learning can help integrate pre-service and in-service teacher education, address traditional challenges of teacher isolation and need for adequate and appropriate learning resource materials. The course will explore use of ICTs to simplify record keeping, information management in education administration.

Communication and information sharing/ storing are basic social processes; new digital Information and Communication Technologies (ICTs), by making these easier and cheaper, have significantly impacted and are impacting our socio-cultural, political and economic spheres. The course will help student-teachers to develop an understanding of the shift from an 'industrial society' to a 'postindustrial information society', where the production and consumption of information is easier/ simpler as well as important. This change has positive and negative implications and possibilities for democracy, equity and social justice, all core components of our educational aims.

The course will help student-teachers reflect critically and act responsibly to prevent how ICTs are used to support centralization and proprietisation of larger knowledge structures; it will show student-teachers how ICTs can be adapted to support decentralized structures and processes, as well as build the 'digital public' to make education a participatory and emancipatory process

EDU.402. COURSE ON EPC 4: UNDERSTANDING THE SELF (30 Hours- 30 Marks)

The aim of the course is to develop understanding of student-teachers about themselves – the development of the self as a person and as a teacher, through conscious ongoing reflection. The course would be transacted through a workshop mode by more than one resource persons.

The course will address aspects of development of the inner self and the professional identity of a teacher. This shall enable student-teachers to develop sensibilities, dispositions, and skills that will later help them in facilitating the personal growth of their own students while they teach. It is important for student-teachers to develop social-relational sensitivity and effective communication skills, including the ability to listen and observe (Hall & Hall, 2003). The course will enable student-teachers to develop a holistic and integrated understanding of the human self

and personality; to build resilience within to deal with conflicts at different levels and learn to create teams to draw upon collective strengths.

As an individual in society one has different identities – gender, relational, cultural – and it is important to address one’s implicit beliefs, stereotypes and prejudices resulting from these identities. It is important for the student-teachers to be aware of their identities and the political, historical, and social forces that shape them. The course will make use of personal narratives, life stories, group interactions, film reviews – to help explore one’s dreams, aspirations, concerns, through varied forms of self-expression, including poetry and humour, creative movement, aesthetic representations, etc.

Yoga will also be introduced as an important component to enhance abilities of body and mind, and promote sensibilities that help to live in peace and harmony with one’s surroundings. Students will appreciate the philosophy of yoga and its role in well-being. They will learn the practice of yoga and how to use it in different contexts.

The course shall also focus on revisiting one’s childhood experiences – influences, limitations and potentials – while empathizing with other childhoods, and also the childhood experiences of one's peers. The following methodologies for the transaction of the course could be used in interactive sessions

Sharing case studies/biographies/stories of different children who are raised in different circumstances and how this affected their sense of self and identity formation.

Watching a movie/documentary where the protagonist undergoes trials and finally discovers her/his potential despite odds.

Issues of contemporary adolescence/youth need to be taken up as student-teachers first need to understand themselves; and themselves in relation to their students and classroom situations.

Different modes of expression can be used in each of the sessions (so that each of the students get a chance to express herself through any of the modes that they are comfortable in) and at the end of the year, the resource person and the coordinating faculty can reflect back on whether all modes of expression were included through the sessions or not.

The exercise of developing reflective journals and providing regular feedback on those journals can also be used here

Broad areas	Introduction	Values and self image	Individual and collective selves	Connecting - self-society	Social interface
Main objectives	Trust building, for future	Opening self, reflection, culture for	Team building, respecting,	Understanding social structures	Becoming the change agent –

	exercises, laying ground rules, energizing	listening and accepting	tasks, sharing responsibility. addressing conflicts	(stereotypes/ diversity / gender) and role of the individual	designing and leading change / social action

Simulation exercises, collective art	Films, meeting people, small group tasks, theatre exercises	Participate or lead in real life intervention (within families/ college or community)

There is no standard prescribed material for these workshops. The professional experts are expected to engage with the students with specially designed activities. These could be based on the facilitator's personal integration and unique individual and group characteristics and are rooted within the context of student's lives and contemporary realities. It is suggested that the students be given space to explore and articulate their own sense of life and its issues. They can be encouraged to think a fresh on issues that most closely concern them and use creativity and imagination to develop a perspective on them. The resource materials are an aid in this process. The resource materials can also include newspaper/web articles on contemporary concerns and movies/documentaries and other audio-visual materials. There is a suggested list of resource materials, which should be contextualized and updated periodically.
